

**Understanding Responder Mental Health and Wellness, Traumatic Stress Management,
and Suicide Prevention Support and Education**

**Intensive Supportive Retreat for
First Responder & Essential Emergency Personnel
Mental Health & Wellness, Traumatic Stress Management, Suicide Prevention & Awareness,
Schedule for 2025 (Sunday-Wednesday)**

Haymarket Center of Chicago, is offering a four-day intensive trauma-focused supportive retreat for Law Enforcement Officers, Corrections, Telecomm, FF, EMS, Disaster and Essential Emergency/Medical Personnel, Emergency Management & Responders who have experienced critical incident related trauma through their work. The cost of functioning as a responder over a career of the stressor and exposure to traumatic events specific to responder culture comes at a cost, often leading to burn-out, cynicism, physical, emotional and spiritual impacts, critical incident trauma and post-traumatic critical incident related stress. This intensive retreat addresses these concerns and offers support, skills and information to help manage accumulative and critical incident stress responders face in their work across their careers. This event has limited opening and requires registration.

The program involves group seminar discussions and education on the personal impact of professional critical incident stress, trauma, post-traumatic stress injury, resiliency, stress management, suicide prevention, and focuses on wellness, and mental health topics. Participants also have the opportunity to have discussions in peer support small-group format.
